Ramakunja is a small and beautiful village in Puttur Taluk. Being the birth place of his holiness Sri Sri Sri Vishwesha Thirtha Swamiji of Sri Pejawara Mutt Udupi, the place has made its mark in our country's map. The Gurukula style educational institutions, started here 90 years ago, have inaugurated a new era of knowledge and education here. Now they have re-shaped themselves into modern educational institutions, retaining their Sanskrit roots and ancient cultural background.

Sri Ramkunjeshwara English Medium School is one of them. Functioning under the holy guidance of Sri Pejawara Swamiji, the institution has made great achievements in the educational and cultural fields. “English for communication, whatever the medium, the priority should be to the Indian culture” is our motto. Being a residential school, it is providing opportunities of education to the students of faraway districts and states. The introduction of 6th and 7th standards is an added advantage to the students. The residential facility is extended to the P. U. students as well.

Donation - free education to deserving students, equal weightage to Curricular and extra-curricular activities, special coaching to the students coming from Kannada Medium and consistent contact with the parents, are our highlights. 100% results in all the years from the start, may hold mirror to our excellence.
